NOTE.—The figures in the above Table (No. 6) give the amount of the actual net receipts derived from the Customs, Excise, Estate, &c., Duties, Stamps, and Taxes due to the Exchequer; and do not therefore correspond exactly with the figures in Tables Nos. 2 and 4, which give the payments made into the Exchequer "Exchequer Receipts," on account of these duties in each year.

\* Prior to 1894-5 all Death Duties were included under the general head of Stamps.

† The net receipt of Property and Income Tax represents the amount of Tax actually collected within the year (irrespective of the year of assessment) less the amount of Tax refunded, &c., within the year (see note § on page 39). The amounts under the several schedules show the approximate net receipt of the Tax based on the assessments of property and income under each schedule.

Note.—The figures in italics for the years 1899, 1900, 1901, and 1902 show the tonnage of vessels employed by Government in the conveyance of troops, stores, &c., from South Africa. These figures are not included in the figures in Roman type above.

† The figures for Plymouth and Southampton have been increased by the inclusion of vessels "calling off" the port to land or embark passengers or baggage, such vessels, unless "brought to" in the immediate vicinity of docks or quays, were excluded up to the end of 1906, but have been included from 1st January, 1907.

‡ The apparent changes in the area under grass in 1906 as compared with previous years are largely due to greater care in classification in the Irish Agricultural Returns and to the transfer of some grass lands from one category to another, while certain areas previously included as pasture are now included in a new item, "grazed mountain land."

NOTE.—Most British Joint Stock Banks are registered under "the Companies' Act, 1862," and consequently, the bulk of the Capital of such concerns is included in the figures given in the above Tables. With the exception of Municipal Tramways, the majority of the Companies working tramways in the United Kingdom are registered under the Companies' Acts, and their Capital is accordingly also included. Railway Companies in the United Kingdom are not incorporated under the Companies' Acts, but by special Acts of Parliament, as they need powers beyond those conferred by registration under the Companies' Acts. Their Capital is, therefore, not comprised in these Tables.

\* The Stannaries Court was abolished on the 1st April, 1897, under Act 59 and 60 Vict. c. 45.

\* On the 1st January of the year following that stated. † The Militia strength is that at the date of inspection, except for the years 1900, 1901 and 1902, when the date was 1st July. The Reserve Division strength is that on the 1st July. The Militia Reserve disappeared before the inspection of 1907. ‡ At the date of inspection. § On the 1st November in each year.

|| The decrease between 1898 and 1899 is due to the number of men called out in the latter part of 1899 for active service. The number so called out form part of the Regular Army, but the increase in the number of the Regular Army, shown in the previous Table does not correspond with the decrease shown in this Table, because the average strength of the Regular Army for the year is shown and not the number at a given date as in the case of the Army Reserve.

† No figures are available for years prior to the year ended 31st July, 1901. The first minute providing for grants on account of the education of defective and epileptic children was dated 26th February, 1900.

‡ For years up to 31st July, 1903, the figures give the number of Scholars on account of whom grant was claimed. This explains the decrease after 1903 in the figures given in the last two columns.

§ For these years, boys and girls of the age of 15 and over are included in the two preceding columns.

The figures are not given here, because in many cases they include particulars which cannot properly be compared with those given in this table. The term "Secondary School" bears the meaning assigned to it in the Board of Education's "Regulations for Secondary Schools."

† The figures include, as regards a comparatively small number of schools, the number of scholars on 30th November instead of on 30th June.

They are not therefore comparable with the figures included in this table, which relate to Evening Schools as defined in the Board of Education's "Regulations for Technical Schools, etc.," (Ch. 2). The year ended 31st July, 1902 was a transitional year.

† Students on account of whom grants were paid for attendance at more than one School are counted once for each School; the number of individual Students on account of whom grants were paid was therefore less than the number given in the Table.

NOTE:—For expenditure on relief of the poor, see Table No. 29, p. 65.

- \* Excluding those in County and Borough Asylums, Registered Hospitals, and Licensed Houses.  
† The numbers given are the total numbers returned from each Union as relieved on the 1st January or the 1st July including those discharged from and admitted to the Casual Wards during those days. It is probable that they include a certain number who received relief in more than one Union on the same day.  
‡ The figures in this column represent the net total of persons relieved, after making the necessary deduction in respect of certain persons counted twice in the preceding columns, such, for instance, as persons who received indoor as well as outdoor relief on the days mentioned.  
§ The numbers of insane paupers in receipt of Outdoor relief on the 1st July cannot be distinguished from those in county and borough asylums, etc., for the year 1898. The numbers are therefore only included in the column headed "Net total of persons relieved."
